Subject: objections to file # 2207

Dear Commissioners;

On May 18, 2009, Hawaiian Commercial & Sugar Company (HC&S) filed with the Commission on Water Resource Management (CWRM) an objection to my water use permit application which is under the name of, Avery & Mary Chumbley Makani Olu Partners LLC. Pursuant to Hawaii Administrative Rule (HAR) section 13-171-18 c it is my understanding that I have 10 working days from the date of this filing to respond to the objections of HC&S to my application. My application demonstrated a reasonable and beneficial use of this surface water under the Water Code and therefore I am entitled to its continued use.

The objections filed by HC&S stated no specific objection as required under HAR 13-171-18 b 1&2 , thus the objection filed by HC&S should be rejected. I can not respond to an objection if no specific objections were stated. If the CWRM is to accept the objections of HC&S, I hereby reserve my rights and request sufficient time thereafter to file a response in support of my application once I know exactly what the specific objections are.

Respectfully,

  
Avery B. Chumbley

Cc: Paul Mancini, Jim Geiger, Gil Agaran  
Yvonne Y. Izu, attorney for HC&S
